characterization Office  
(M/S #025)  
North Las Vegas, NV 80036-0307

Dear Ms. Hanlon,

I am writing to oppose the Yucca Mountain project. The department of Energy lacks a Final Environmental Impact Statement, and a detailed transportation scenario or licensing rule. I live along the proposed transportation route and feel uncomfortable with the plan to ship so much radioactive waste past my house. The solution of storing waste at Yucca Mountain is not workable. Please find another solution.

Thank you,

  
Jody Wolfe
